**IMMEDIATE RELEASE**

Our Lady of the Wayside, a residential provider serving nearly 200 children and adults with Mental Retardation and Developmental Disabilities in Greater Cleveland, is energized by a recent \$25,000 grant from the Community West Foundation. “In joining with others, this generous grant will help support the agency’s carefully tailored and vital Nursing and Healthcare Infrastructure in the wake of shrinking Medicaid fees and skyrocketing healthcare costs,” said Terry Davis, Our Lady of the Wayside President and CEO.

The Community West Foundation “illuminates hope” through its mission “to advance the health and well being of the community.” The foundation awarded almost \$5 million in the past year to area agencies to improve healthcare efforts across Greater Cleveland.
