

Our Lady of the Wayside is grateful for the following grants we received in late 2009 from five foundations. The Bruening Foundation, Reinberger Foundation, Irene's Children Foundation, the Vida C. Logan Fund and the Murch Foundation have all been long time supporters of the agency and its commitment to individuals with disabilities. These grants will go to support out healthcare infrastructure, nursing program and emergency operating support. Foundation support is essential as funding from government sources falls short each year and we must fill a considerable gap to provide the quality medical and daily services that our clients depend upon. We are especially grateful for the support from the philanthropic community during these tough economic times.

These grants truly help in "Putting Smiles on Hopeful Faces"
